

Re: Job Posting (Research Scientist)

STCube Pharmaceuticals, Inc. is focused on developing novel and next-generation immunotherapy, mainly immunomodulators as cancer therapeutics. We are seeking an individual who is passionate about anti-cancer biologic discovery.

RESPONSIBILITIES

- Research scientist with intensive training in cancer or immuno-oncology.

REQUIREMENTS

- PhD in cancer biology, immuno-oncology, molecular biology, cell biology, immunology or related field with more than 2 years of postdoc experience preferred
- Experiences with antibody discovery and engineering (preferred)
- Deep understanding in T cell biology (preferred)
- Highly motivated scientist while working effectively as a team member
- Full time and available to work immediately

APPLICATION: Curriculum vitae and 2 references (email to contact person)
